Hi – Hope you are doing well! This is to keep you in the loop so you know what EPA Region 10's Water Program is doing. I also asked Jenny Wu to talk to me for EPA's position on notifications prior to pesticide applications. Mark – I told Jenny Wu that the comments that she saw from you were preliminary and that you are still working on your comments.

Please let me know if you have any questions.

Hi Everyone,

Thanks again for all the hard work on putting together the pesticides decision rationale and response to comments documents. It was a lot of meetings, tough issues, and a steep learning to curve on our different programs, so I appreciate your hard work and sticking with the project!

The complete (covering all of the issues) draft decision document and the complete draft response to comments document are attached. Between now and November 7<sup>th</sup>, upper managers (Christine Psyk's level) and attorneys from NOAA and EPA will be reviewing both documents and providing comments back to the CZARA core team. This is the same document that you've all looked at. (Linda, I still have to connect with you on your concerns with the notification in response to comments.) Still, this is one last opportunity for you to provide additional input. You are free to comment on any or all parts of both documents, not just the pesticides piece you worked on. We just need your comments by COB, November 7<sup>th</sup>. The CZARA core team will compile the comments and revise the documents as appropriate. Our goal is to achieve "pens down" status before Thanksgiving.

Work is also underway on the communication strategies and briefings for both agencies to set the stages for the final decision.

Again, thanks for all the work on this issue! If you have any questions, feel free to call me. - Jenny
